Andrey **Krasavin**

Frontend Developer · UI Engineer · Media Informatics Graduate
Berlin, Germany
+49 176 73507698 krossx6@gmail.com selleriekraut-portfolio-site.vercel.app selleriekraut Andrey Krasavin

Profile

Frontend-focused Media Informatics graduate with practical experience developing production internal tools and interactive web applications using Vue.js, React, Tailwind CSS and modern frontend workflows. Passionate about building intuitive user interfaces and creating user-centered digital experiences. Open to Front-End and UI Engineering roles in Berlin.

Projects

Gamification Dashboard for Deutsches Zentrum für digitale Aufgaben (DZdA) — HTW Berlin

Bachelor Thesis — 2026

- Researched and adapted gamification concepts from community platforms such as Stack Overflow.
- Designed user-centered dashboards and responsive interfaces for tracking reputation, achievements and activity.
- Developed reputation, voting, badge and leaderboard systems within an existing Ruby on Rails application.
- Defined requirements, use cases and UX flows throughout the project lifecycle.

Nexum (University Project) — HTW Berlin

Slido-like live Q&A app for interactive events — 2025

- Built with Vue.js, Tailwind CSS and PocketBase, with real-time updates.
- Role: Frontend Development & UI/UX Design.
- Live at: https://nexum.f4.htw-berlin.de

Pal-ette

color palette generator for interface and brand work — 2025

- Built with React, TypeScript and Vite.
- Interactive tool for generating and exporting coherent color palettes.
- Visual features include picking colors directly from an uploaded image and generating randomised pattern images from the current palette.

Portfolio Website

Personal portfolio site showcasing design and frontend work — 2025 – 2026

- Designed and built from scratch; currently being rebuilt with a stronger visual identity.
- Live at: https://selleriekraut-portfolio-site.vercel.app/

Experience

Business Analyst — Outbound Marketing & IT — Yoffix, Berlin

03.2025 – 04.2026

- Owned outreach and lead-generation workflows, including process automation across the outbound stack.
- Maintained and extended internal tooling used by the outbound team day to day.

Internship — Outbound Marketing & IT — Yoffix, Berlin

10.2024 – 02.2025

- Built an internal email-verification tool (JavaScript + API integration), reducing manual checking time by 60%.
- Developed automation scripts for LinkedIn outreach and CRM cleanup.

Education

HTW Berlin — Berlin, Germany

B.Sc. Media Informatics (completed 2026) — 2023 – 2026
